FEATURED BUSINESS

D&L Heating and Air, Inc.

I was introduced to the folks at D&L Heating and Air several years ago and was impressed from day one! Now you probably have never heard of this company as they advertise VERY little, they have built their reputation thru word of mouth from work done for individual homeowners to builders and investors all over Georgia. Located near Kennesaw Mountain the company was formed in 1999 thru a partnership between Randal Lowe

& Mike Durden. Offering quality Lennox products D&L Heating and Air has been recipient of the Lennox Circle of Excellence award multiple times. This award recognizes the top 1% of Lennox dealers. Think of this...out of literally 100's of heating and air companies in the area you can deal with a company that is recognized as an INDUSTRY LEADER, ranked in the top 1%! With service technicians that live right here in West Cobb and Paulding you

can also be assured of being able to contact someone at anytime if you have a question or an emergency issue. As spring changes to summer and your Air Conditioning system needs that annual checkup give D&L Heating and Air a call and see the difference dealing with these hometown professionals make.

Also be sure to visit www.GAWebNews.com and read more about this company!
